DETAILED ACTION

Response to Preliminary Amendment

1. The Preliminary Amendment filed on September 5, 2003 has been entered. The claims pending in this application are claims 43-57.

Species Election

2. This application contains claims directed to the following patentably distinct species:

- (1) the step of cleaving comprises randomly shearing the genomic DNA to yield fragments (claim 48)
- (2) the step of cleaving is by methylation insensitive restriction enzymes (claim 49)

The species are independent or distinct because they are different ways to cleave an eukaryotic genome.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, generic claims are claims 46, 47, and 50-57.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations

Art Unit: 1634

of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center.
